

# RESEARCH OPPORTUNITY

---

**Do you have quadriplegia (tetraplegia)?**

**Are you currently working or want to be?**

**Could you work more efficiently?**

**Do you want help with deskwork?**

**Would you like to contribute to SCI research?**

**Do you want to earn \$100?**

---

We are looking for people with tetraplegia (a.k.a. quadriplegia) who are interested in learning to use a computer and robotic assistant designed to help people enter or return to the workforce, explore new hobbies and interests, and regain their independence.

*2-4 sessions of participation are required for training and evaluation on the system.*

*No prior computer experience needed.*

---

**More information on the system is at <http://provar.stanford.edu>**
